## BUZZARD SLANDERS—NICK NAMES—COFFIN HAND BILLS.

The Buzzard Editor in his last paper was again out slandering and Nicknaming our Democratic candidates, Gen. Blake, John D. Cummins and Dr. McMeal, all come in for a share of his vile slang. The Democracy know these men, and they also know the corrupt wretch who has been for years spouting out his filth at not only them but every other upholder and defender of Democratic principles, and being thus acquainted with the villainous career of the Buzzard they will place a proper estimate upon his slanders and abuse.

Gen. Blake is represented in the last Buzzard as a Clay man in '21—opponent of Gen. Jackson—would have peddled coffin hand bills if he could have got them, and lastly his greatest crime is that he has no property as if that was a charge to bring up against a man in this free country. Let us set these matters right with a few facts. In 1824 Clay was the candidate of the Democracy of Ohio and the West and they supported him. He went against all the federal measures and received a majority of the votes of Ohio. The election for President went into the House, and Clay then turned traitor to his party, voted out the west to J. Q. Adams a New England Federalist, and received for his treachery the office of Secretary of State. The people turned him in on the country, as they did Arnold, and ever since that year the Democracy have opposed him as a traitor to the country, and their principles. In 1828 the federalists got out their coffin hand bills against Jackson and while General Blake was battling for the Hero of New Orleans, the Buzzard editor was Coffin hand bill General of Tuscawawas county. The Buzzard had the Post office then, and Mordcau Bartley and others sent him coffin hand bills by the load which he peddled over the county. So much for that.

But the greatest crime in the Buzzard's eyes is that Gen. Blake has no property—no horses, cattle, sheep hogs, plows, harrows, &c. Did the Buzzard ever tell his readers the reason of this. Did he ever tell them that Judge Blake has been kept poor by having to pay three or four thousand dollars bail money in his time. No, you never hear a word about that. But the fact of being without goods and chattels is crime enough for the Buzzard. Shame on the microant who would thus throw a man's poverty in his teeth.

Messrs. Cummins and McMeal are charged in derision with being Barbers and Bakers. The first charge deserves no other answer than the application of a "young hickory." Whether either of them have been a Baker it matters little except to show the hatred of this Buzzard aristocrat towards honest mechanics. It is about equal to the charge against Blake of being poor, and slanders to the farmers, mechanics and laboring men the true character of this federal leader. Politically he advocates measures oppressive to the laboring classes, and casts slurs upon honest poverty, and honest mechanics. He inculcates the doctrine that poverty is a crime, and that farmers and mechanics are low people and should not be trusted with office. And yet every dollar that the Buzzard owns, and the bread he has eaten for 20 years, has been wrung from the very classes he now stigmatizes. Go hide your head in shame, you buzzardish wretch.

## HARD RUN.

Some of the enemies of Democracy are circulating a slanderous report that our Democratic Editor BRADY BRAINARD, Esq. of this county is not in favor of the election of Polk & Dallas. This is too contemptible a slander to need contradiction, and we assure our Democratic friends that knowing Mr. Brainard as well as we do, we would not hesitate to vouch for his integrity as a man and a democrat even if the liberties office Democracy departed upon his acts.

Prosecutor Hartman and Auditor Everhard went up to enlighten the democrats of Bucks tp. last Saturday. They spoke an hour each, and the meeting broke up by giving 3 cheers for Polk and Dallas. This made these federal stampers fizzle out at the little end and ran home.

## A FEW WORDS TO HONEST WHIGS.

We call the attention of the whigs of Tuscawawas to a communication from one of their party signed "equal rights," and which shows up the rascality of a hungry set of vipers about the county seat who have been cheating their followers the last ten years out of a fat office by the basest and most dishonest means. And while these horse leeches are thus sucking the life blood out of their party, they are endeavoring to make their deluded followers believe the Democracy are divided, and that they can elect a whig Congressman from this district. Yes, the very leader of these leeches, and he who has been the father of this wholesale system of "trickery" upon the whig party, is week after week holding out the idea that the Democrats are cut in two, and that the whole whig party are to be the gainers by it. But the dumbest whig in the county can see through this trick if he will open his eyes. The Buzzard has in reality not the slightest hope of ever electing a whig Congressman, or of dividing the Democracy, but he thinks it a good enough bait for the country whigs to bite at, and to put them off their guard, until he and his crew can again secure all the spoils of office. This is the trick—this the maneuvering of the old hypocrite to throw snuff in the eyes of his party, while he robs the farmers and mechanics of their rights.

Is there a sensible whig in the county who knows the Democratic party, and the principles we contend for, who believes for a moment that in a contest about men we will let our principles go the devil, and suffer defeat rather than abandon their preference for this man or that man. If there is any whig so simple as to believe this clap trap of the Buzzard, let him dismiss himself of any such foolish thoughts, & turn his attention to where it is more needed, viz: to the villainous schemes by which the Buzzard and his band of Goths are enriching themselves off the taxes of more honest men. For rest assured, that although the Democracy may now appear to have their feelings wrapped up in favorite men—and we honestly confess that we are not behind any in that respect—for it is the God granted privilege of a freeman—yet no sooner will the nominations have been made than all will rush to their support, firm, united, and determined to know no enemy but federalism.

## PRACTICAL ILLUSTRATION THAT THE FEDERAL LEADERS DO NOT BELIEVE THE PEOPLE CAPABLE OF SELF GOVERNMENT.

The Democracy believe that the People can govern themselves and are capable of selecting their own rulers. Federalism believes no such thing. Let us demonstrate these facts. The Democracy of Tuscawawas so believing and so acting, after a months tutelage meet together, select their delegates, instruct those delegates who to vote for, and send them into convention as the servants of the people under instructions, consequently their power coming from the fountain head the people and what they do being in obedience to the instructions from the people, the nominations are made in fact by the people. What could better illustrate the great principle of self government. Now look at Federalism. We see their township meetings called this year in Tuscawawas in some instances with one day's notice, their delegates selected after night, no instructions given—hurried to the Convention, to do what they wish to "suck their fingers" as our correspondent says, while the leader of Fuzzards darkens the air with his carcases and reads off the "nominations" that have been made 2 months before by the Buzzard Club in New Philadelphia and then "the Convention" adjourns—the Buzzards go pecking away at the public money, and the "people" go home and support the Buzzard ticket, and they call "self government". Yes, they say they have used "their nominations" when in fact they have had no more to do with it than the wandering Arabs, and receive no more benefits from it than the will Indians of California. What freeman will or can such monarchism!

## THE WAY THEY CHEAT FARMERS

A correspondent seems to think John Everhard is satisfied with "4 heats" and 4000 dollars, and is willing to give way to some farmer or mechanic. Van delusion! Why do you not know that John Everhard is now a candidate for the fifth time and actually had his nomination carved out two months ago! Do you not know that the Buzzard Club have all the lucrative offices distributed out among themselves for the next ten years! What care they for farmers' or mechanics' rights! Not a straw. They will tickle you up with a Poor House director, or Commissioner, but take care for their offices as Senator Representative, Auditor, &c. Farmers and mechanics can't shine in that crowd. They are not capable of self government say the Buzzards, and can't be trusted with honorable or profitable offices. Witness how they laid farmer Ulrich on the shelf last winter when his friends wanted to make him Elector. The Buzzards got together, wrote to Columbus—president—farmer Ulrich knocked in the head, and up come Layzer Sapp of Millersburgh. Look at farmer Matheny. Last year they run him when there was no chance, for the Legislature. Now they have him stomping it over the hills until the Convention with a promise; then he may go out to grass, for Doctor Bennett is the Buzzard's man—he was "nominated" 3 months ago. And so it is throughout the county. So it has ever been and ever will be, as long as the present federal leaders of Tuscawawas can hoodwink, deceive, and trample upon their followers. And so long as they have out the independence to speak out and redress their wrongs—so long as they suffer themselves to be deceived, humbugged and betrayed by a corrupt and depraved editor who should have been kicked out of the county ten years ago for his lying and deception—so long will they deserve all they get and more too.

## A COON UP A STUMP.

The Buzzard refuses to bring Bartley the coffin hand bill pedlar into Tuscawawas, but wants us to fetch Tod along. Can't do it unless you accede to our challenge and give bonds that Bartley shall be here. Tod has been here already. Why is it that the federal leaders are so afraid of bringing Bartley among the people! Do they expect that the people will vote for a man who dare not show himself! It is too much like buying "pig in a poke," and the voters will say so at the polls. Mark that down.

## LOOK OUT FOR FRAUDS.

The federal leaders are driven to such desperation that they are resorting to the basest frauds. Last week at Rochester, N. Y., they forged the names of 50 democrats to a communication against Polk and Dallas, and had it published, but the villain was soon exposed. We caution our Democrats to be on their guard against the base means used by corrupt leaders to deceive them.

## ELECTIONS.

The State election of North Carolina and Tennessee took place last Thursday. Those of Kentucky, Alabama, Indiana, Missouri and Illinois last Monday. Lots of returns for Polk and Dallas in a few days. It is estimated that over 50,000 votes were given to Polk and Dallas in the State of Ohio. Keep the Ball a rolling on.

## COMMUNICATION.

For the Democrat.

Messrs. Editors: If you will give this communication a place in your paper you will oblige me and my neighbors. Although opposed to you in politics, I think you will not refuse when you learn that we can not get leave to express our sentiments in our own party paper. For a long time myself and others have believed that a few wire workers at the county seat have ruled the whig party of this county and appropriated all the good offices to themselves. To be sure they let us do the voting part, but they always managed by some kind of secret wire working and trickery to get all the money among themselves. They would come out and call us the "dear people," get up township meetings, & their speakers would come & tell us how honest we were, and how dishonest the other party were, and exhort us to come up to the Convention and choose our candidates, but when we would leave our work and go to the Convention, we found things all cooked up and fixed, the good offices distributed among the leaders, and we had nothing to do but go home again sucking our fingers. Believing as I did that this kind of trickery was not only dishonest, but was making fools of us, I wrote a couple of communications for our paper, calling on the people to put down these wire workers, or to get at least a share of the profits, being as the people had all the work to do. But they were never published, and when I asked the reason, our Printer said it would split the party and blow us up, but that if we would keep quiet, justice should be done us. Well, we have been waiting year after year, not instead of "justice" coming we find that the office seekers are increasing so fast the county seat and the wire workers along with our printer are so busy helping themselves to the people's money, that they have forgot all about claims.

It used to be that our leaders were satisfied with one or two terms in a good office, but since politics got high they can't be put off with less than 4 or 6 years, and if we oppose it, they cry out "split the party," and for fear of that we have bowed down in silence, while they got all the honors and profits. It doesn't matter how many hard working farmers or mechanics there are in the county able to fill any office, they must all stand back till the leaders get their bellies full, and I must say some of their pouches are so strutting that I fear they never will be satisfied. I will name a case in the person of our Auditor Mr. Everhard, as a sample of the greediness of some of our leading whig wire workers. Mr. Everhard, had hardly been here long enough to get acquainted with one fourth of the people, till he showed himself out for the Legislature, over the heads of dozens of honest farmers who had lived here their lifetimes, and labored for their party. But he had been President of a bank and a leader where he came from, and that was a better recommendation to our leaders than a hard hand or a sunburnt face, so they hoisted him into the nomination. Well, we voted for him, and no sooner had he got back from Columbus (with near \$400 of taxes in his pocket for four months services,) than he was again riding over our heads for Columbus. We went it blind, satisfied, that he would not ask for more than two heats in office in succession. But what a mistake! Here came the next election and with it came John Everhard asking to be elected County Auditor. He had got 800 dollars for 8 months good eating at Columbus, & surely said he the "dear people" will not object to giving me 1500 dollars more to be Auditor two years! This was a stumper, and there was much kicking, but our honest leaders with little Pat at their head, cried out we would "split the party," if there was any opposition. So in went Mr. Everhard into the Auditor's office over the heads of more deserving men. But Gen. Harrison's election drowned all for that year. In the course of the next two years he had become one of our leading wire workers, and when his time was up had only to pull the wires to secure the Auditor's office two years more. This he did, but such an outrage on the rights of the older citizens, near cost us our whole ticket that fall, and to show the state of feeling that existed, look at the vote he received. In 1840 his majority was near 400; the last time it was but about 50, and nothing saved him or the party, but his solemn pledge that he would never insult us by asking for office again. Thus Messrs. Editors, has this gentleman wire worker, out of 8 years residence in the county been kept in office 6 years by the trickery and management of our leaders, and received for 6 years some four thousand dollars of the people's hard wrought money. And his case is only a sample of the rest of our whig leaders at the county seat. Do you call that honesty! Do you call it dealing out justice to all! Is that the way to reward those honest men in the country who worked and fought for Whig ascendancy for years before John Everhard was ever heard of! Is that the "Whig principle of rotation in office!" I think every man will say no, and every principle loving Whig will rise up with me and expose such trickery on our rights hereafter, come from where it may.

I have heard lately that Mr. Everhard is boasting that he could keep the Auditor's office for years yet, if he saw proper, in spite of a "few office hunting countrymen." I cannot believe such a story. It is an insult such as Mr. Everhard with all his brass would not dare to offer to us who have stood back and fought in the ranks, while he was filling his pockets. No no, Mr. Everhard must certainly be satisfied with what he has already got, and his common sense tells him it is time to let go the public trust, before he brings down the vengeance of the whigs upon him. Still if he has the impudence to ask for another nomination, in the face of his pledges, and contrary to anything ever heard of, I hope there is enough patriotism among the honest whigs to shake him off, and put in for Auditor some good man from the country for once. Let my brother whigs stir in this matter lest we be again overpowered and wronged by those who pretend to be our friends but are our greatest enemies.

## EQUAL RIGHTS.

"HIGH WAGES." Henry Clay and Daniel Webster received in a single year more than \$15,000 each from the United States Bank, for alleged "professional services." This, we presume, are the "high wages" the coons are so constantly talking about.

## CHANGES—WHOLESALE BUSINESS.

MAKE ROOM FOR CLEVELAND, OHIO.—The Cleveland Plaindealer comes to us with a letter and certificate, signed by ONE HUNDRED AND FIFTY-SIX electors who voted the whig ticket in 1840, who have renounced the whig party and enrolled their names upon the glorious banner of democracy.—Louisville Democrat.

The Lawrenceburg (Ind.) Beacon, of the 25th ult., contains similar renunciations from 38 citizens of its vicinity.

It is laughable to hear men falsely accuse Mr. Polk with having "lory ancestors," who cannot go back two generations, in their own families, without stumbling over a score of them.

## DEMOCRATIC COUNTY CONVENTION.

The Democratic voters of Tuscawawas County are requested to meet in their respective townships on **SATURDAY THE 21ST DAY OF AUGUST**, next, and select five delegates from each township to attend the County Convention to be held at the Court House in New Philadelphia, on **MONDAY THE 2ND DAY OF SEPTEMBER** next, for the purpose of nominating a county ticket, and to select delegates to attend the Congressional Convention.

The undersigned Central Committee confer in and offer the following recommendations. First, That the delegates be instructed by their respective townships as to who they shall vote for in county convention.

Second, That the delegates procure certificates signed by the officers of their respective meetings, stating that they are such regularly appointed delegates, which certificates shall be produced the day of the County Convention as evidence of their right to act in such capacity.

Third, That the Democrats at their township meetings appoint a vigilant committee of one able efficient man in each school district in the several townships, and report their names to the central committee on the day of the Convention.

D. MCGREGOR,  
V. P. HONHAM,

## THE LAW.

The following is the second section of an act passed by the General Assembly of Ohio, in March, 1844.—That when any person is charged on the duplicate with tax on real estate, and tax on chattel or personal property, the payment of tax on such chattel or personal property shall not release it whilst in his possession from liability to be distrained for the payment of tax on such real estate, unless the person in whose name such premises are charged, shall satisfy the County Treasurer that the same are not his property and are erroneously charged in his name for taxation. But the Treasurer shall be authorized and required in all cases where any person properly charged with tax on real estate, has personal property within the county to distrain the same for the payment of such tax, and the County Auditor shall accept from the Treasurer in his return of delinquencies, no assignment of cause for such delinquency of landed estate, except that the owner is a non-resident of the county; that such premises were erroneously taxed; that no person of property could be found, or that property when seized, was not sold for want of bidders.

It will be seen at a glance, that the law compels the Treasurer to travel the county through, and to see each taxpayer, either for the purpose of making the tax by distress, or obtaining the assignment of cause required by law, before he can possibly be prepared for settlement with the Auditor. For this purpose the law gives from the 26 December to the 15th January—a limited time indeed, to collect by distress from two to three thousand dollars in small sums, consequently it will be impossible for me to attend at my office after the 20th December, unless the taxes are satisfied, or nearly so, by that time, as it is as much the taxpayer's interest as mine, that the taxes be paid without additional costs. I give this notice, with a hope that it may in due time come to knowledge of all concerned, and prove advantageous to them, as well as to myself.

JOSEPH DEMUTH,  
Treasurer of Tuscawawas County.  
July 12, 1844.—27 6w.
